/ roles

Roles I take on and enjoy

AI Adoption & DEX

Bridge · Freelance · Startups

Makes AI part of how teams build every day: tools, workflows and review practices, guided by Developer Experience (DEX).

AI Engineer & Automation

Bridge · Freelance · Startups

Agents and automated workflows in production, including LLM features for a healthcare platform, from prompt to integrations.

Full-Cycle Product

Bridge · Freelance · Startups

Owns a product from the first conversation to launch: what to build and why, design, planning and implementation.

Tech Strategy & Innovation

Bridge · Freelance · Startups

Evaluates new tools early and turns them into clear options for leadership, through small experiments and realistic plans.

Tech Lead & Architect

Bridge · Freelance · Startups

Has led engineering teams for over eight years: architecture, trade-offs and technical direction, with mentoring throughout.

Lead UX & Frontend Engineer

Bridge · Globant · Olapic

Design systems, UX and component architecture on enterprise and user-generated-content platforms.

Full-Stack Engineer

Bridge · Unisono · Moobin · Freelance

15+ years following features from interface to API to cloud, with a clear view of how each layer shapes the others.
